

# EASY PEASY™

## Chunk

Keep bath time easy peasy lemon squeezy with this sweet mint and bright lemon bar, featuring Rainforest Alliance Palm Oil and shea butter to moisturize and hydrate.

CH1427

Palm fruit oil, as a soap base, helps remove dirt and oil more effectively and naturally from skin than traditional soap. Plus, it can help prevent oil and moisture loss, because its super-concentrated form of vitamin E can penetrate skin better.

Shea butter is full of potent moisturizing properties, skin-loving fatty acids, and antioxidants. It can help moisturize and condition skin, helping soothe irritation. Shea butter contains vitamin A, which can help promote cell turnover.

Glycerin is a skin identical ingredient, naturally found in and easily absorbed by the skin. It's also a potent humectant, drawing water from the air to help skin lock in its moisture levels.

Use in shower or bath. Lather into hands and clean yourself from head to toe. Rinse thoroughly.
