

Don't BE BITTER, BABY!

Smooth apricot kernel oil, coconut oil, and aloe vera over your hands for lots of naturally based moisture that never feels greasy. Enjoy the scent of ruby grapefruit and rich sandalwood as you soften your skin, which is nothing to be bitter about!

PS4012

Full of essential fatty acids and vitamins A and E, apricot kernel oil moisturizes and easily absorbs into skin without feeling greasy. Because the fat content of apricot kernel oil is so similar to skin, it soothes and restores dry, itchy, irritated skin faster than most other oils, plus it won't clog pores and helps regulate oil production.

Coconut oil is a rich, fast absorbing moisturizer excellent for all skin types, from the ultra-dry to oil-prone. It's also rich in vitamin E, which is a powerful antioxidant that can help protect skin from environmental damage. Its unique proteins can help repair skin tissue.

Aloe vera can help restore moisture to dry skin, as well as reduce inflammation and skin damage. It contains minerals, enzymes, antimicrobials, and amino acids. It also contains salicylic acid, which can help clear away bacteria. Aloe can help reduce the appearance of fine lines and wrinkles due to its healing and ultra-hydrating abilities.

Apply generously to hands to make them feel spoiled.
